// FROM PROCESS INSTRUMENTS TO DECARBONIZATION MEASUREMENT ECOSYSTEMS

ENDRESS+HAUSER JAPAN 2026

> *In Japan, the 2026 trend is the shift from traditional instrumentation toward hydrogen, emissions monitoring, and maritime automation.*

// STRATEGIC_TRANSFORMATION

EXECUTIVE SUMMARY: THE 2026 JAPAN SIGNAL

> *A growing market meets an expanded portfolio*

JAPAN MARKET 2030F	GROUP SALES GROWTH
$8,821M	*7.2%*

STRATEGIC_EXECUTION_MATRIX

01 Japan process automation market is forecast to reach USD 8,821M by 2030.

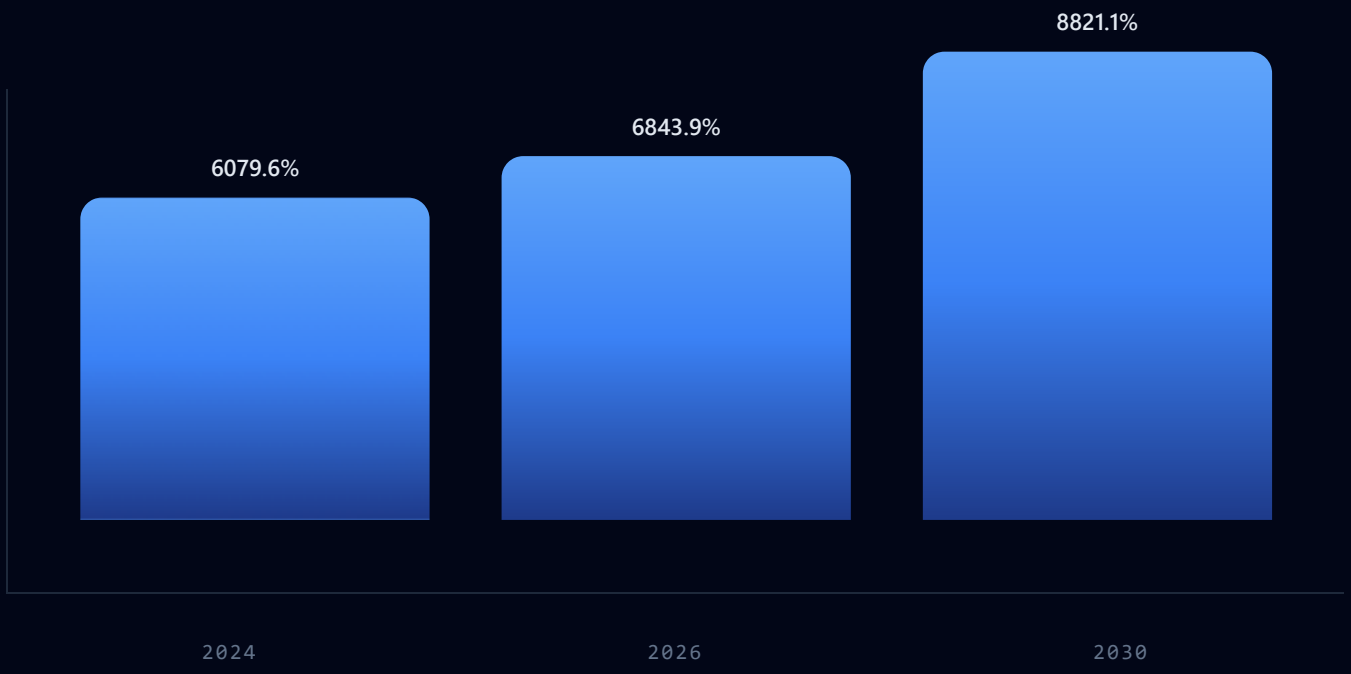
02 Endress+Hauser Group sales grew 7.2% in 2025 (EUR 4,013M).

03 Decarbonization demand is driving portfolio expansion in gas and emissions analysis.

04 Strategic integration of SICK process analysis business strengthens local capability.

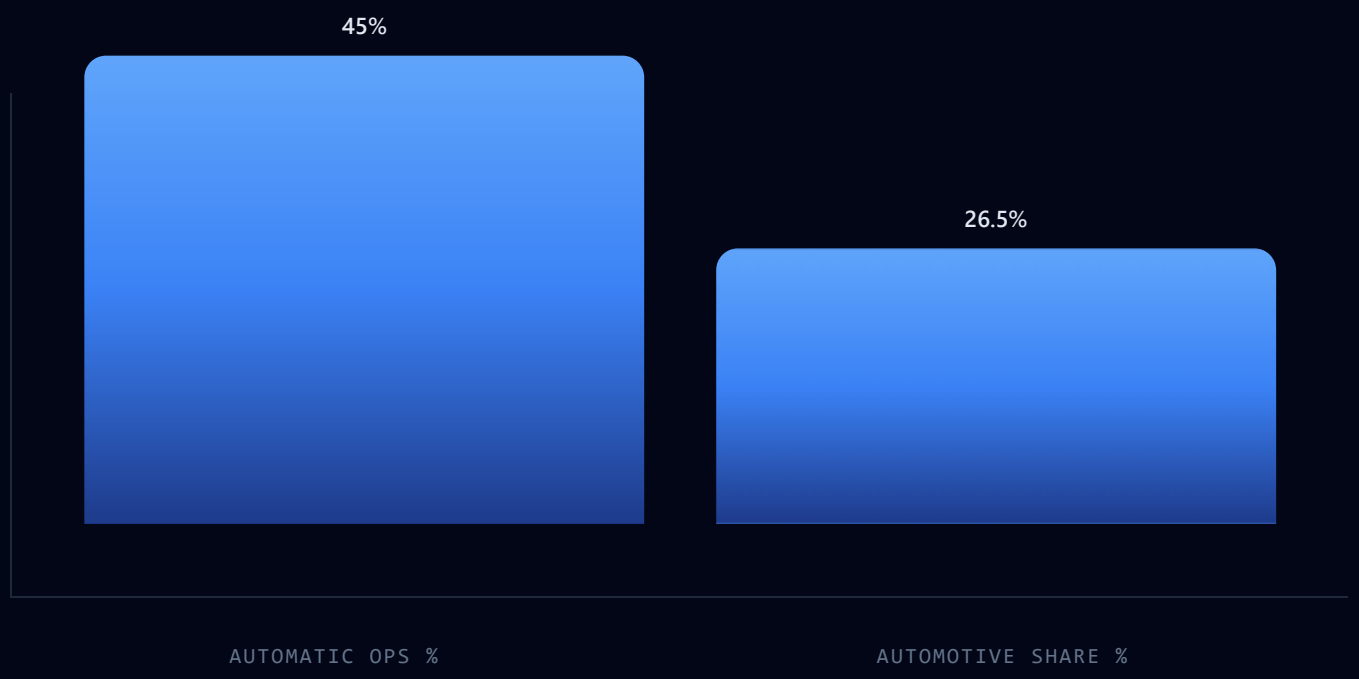
JAPAN'S PROCESS AUTOMATION MARKET GROWTH

Projected growth creating room for premium suppliers



WHERE JAPANESE DEMAND CONCENTRATES

Focus on Automatic Operations and Automotive Sector



// STRATEGIC_TRANSFORMATION

HYDROGEN: FROM POLICY TO MARKET

> *Focus on Custody Transfer and Safety Measurement*

H2 EXPO DATE	KEY TECH
Mar 2026	*Ultrasonic Flow*

STRATEGIC_EXECUTION_MATRIX

01 Hydrogen value chain measurement points: Production, Transport, and Utilization.

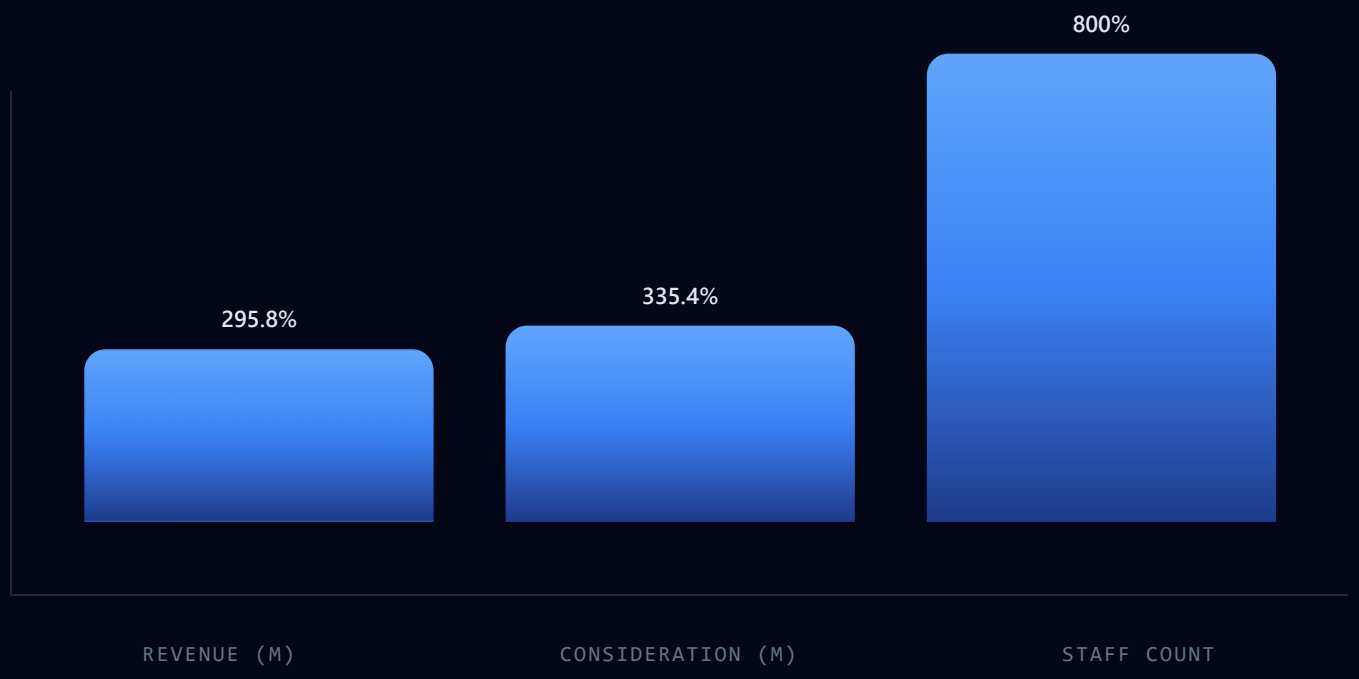
02 Showcase at H2 & FC EXPO 2026 (March 17-19).

03 FLOWSIC610: Ultrasonic gas flowmeter for 100% hydrogen transport.

04 Strategic focus on Raman spectroscopy and TDLAS gas analysis.

SICK INTEGRATION EXPANDS CAPABILITY

Revenue and human capital contribution



// STRATEGIC_TRANSFORMATION

MARITIME: A VISIBLE 2026 VERTICAL

> *Sea Japan 2026 signals targeted maritime push*

SEA JAPAN 2026
Target Year

KEY PLAY
Marine Emissions

STRATEGIC_EXECUTION_MATRIX

01 Bunkering Measurement Skid: No.1 share at Singapore port.

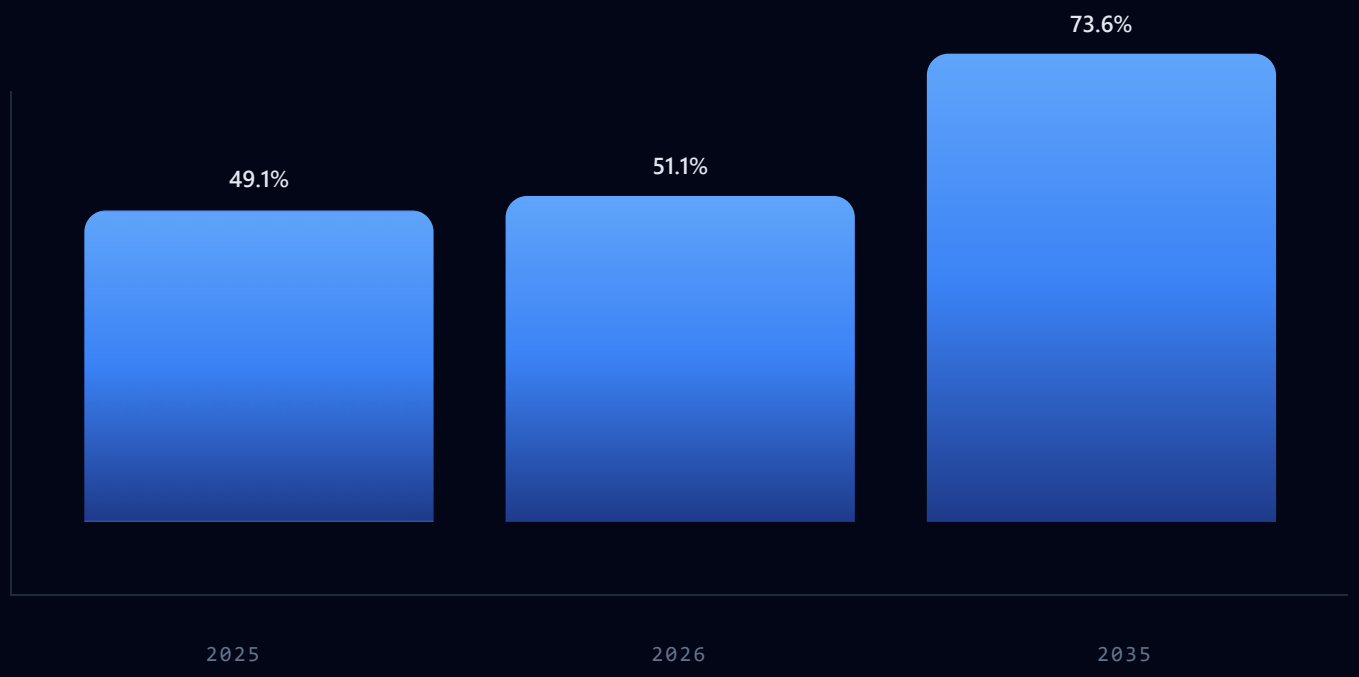
02 Marine Exhaust Gas Analyzer: World top share positioning.

03 Applications: Emissions monitoring, Boiler-water quality, Multi-point sampling.

04 Crucial for Japan's shipbuilding and shipping ecosystem compliance.

SMART AUTOMATION AND MONITORING TRENDS

Shifting toward IoT and AI-driven process control



// STRATEGIC_TRANSFORMATION

SUSTAINABILITY AS A PROCUREMENT ASSET

> *ESG innovation supporting supplier credibility*

ECOVADIS SCORE	R&D RATIO
78/100	*7.0%*

STRATEGIC_EXECUTION_MATRIX

01 EcoVadis Score 2026: 78/100 (Top 6% of evaluated companies).

02 High R&D ratio of 7.0% ensuring long-term innovation.

03 294 patent applications and EUR 371M in strategic investments.

04 Decarbonization proof is now a 'must-have' for Japanese customers.

"Our financial figures for 2025 are heavily influenced by the integration of SICK gas analyzers and flowmeters into our business."

DR. LUC SCHULTHEISS

CFO, ENDRESS+HAUSER // STRATEGIC

2026 JAPAN PLAYBOOK

- >> Lead Now: Hydrogen custody transfer and marine emissions monitoring.
- >> Scale: Partnering for smart factory integration and predictive maintenance.
- >> Differentiate: Use EcoVadis and innovation credentials in procurement.
- >> Monitor: Carbon capture and direct air capture emerging use cases.
